AMERICAN MEN AND PROSTATE CANCER BY THE NUMBERS

1 in 9 American men will be diagnosed with prostate cancer at some point in his life.

Every 3.2 minutes, a man is diagnosed with prostate cancer.

Every 18 minutes, a man dies of prostate cancer.

Prostate cancer is the most commonly diagnosed cancer among men.

Today, there are 2.9+ million prostate cancer survivors in USA.

164,690 men will be diagnosed with prostate cancer in 2018.

29,430 men will die from prostate cancer in 2018.

THE GOOD NEWS IS...

Nearly 100% of American men diagnosed with prostate cancer will be alive five years after their diagnosis.

WHAT CAN I DO?

KNOW YOUR RISK

RISK FACTORS
- Race
- Family history
- Aging
- Diet
- Sleep changes
- Chemicals
